NINE WERE FROZEN TO DEATH.

Cold Weather Finally Reached Atlantic Coast - Forty Degrees Below at Williston - Lowest Temperature In the United States-Ten Below at Pittsburg.

WASHINGTON, Feb. 10.-The cold wave which prevailed for 12 days in the central valleys, west and northwest, finally reached the Atlantic coast and extended from Maine to Florida. The line of zero temperature extended through Oklahoma, Arkansas, Central Tennessee and Central Virginia, while the lowest temperature reached was 40 degrees below zero at Williston, Minn.

In Florida the line of freezing temperature extended below Tampa, with a minimum temperature of 30 degrees at that place. In the districts from lowa and Missouri eastward, through the Ohio valley and almost to the Atlantic coast, the temperatures ranged from zero to 26 degrees below zero and were from 1 degree to 6 degrees below the lowest temperatures previously recorded during the first decade of February. The temperatures, however, were moderating in the east gulf and South Atlantic states, and the central Rocky mountain region.

Fair weather prevailed with the exception of light snow in the lake regions and extreme northwest and rains and snows in the gulf states. In the north and middle plateus and the North Pacific coast region rains and snows continued, while clear weather prevailed to the southward.

Snow or rain was indicated from Eastern Texas northeastward to Western North Carolina and Southern Tennessee, and light snows in the northwest; elsewhere generally fair weather was expected to continue, except in the lake regions, where snow flurries were

Brisk west to north winds were expected on the Middle and North Atlantic and fresh to brisk north to northeast winds on the South Atlantic coast.

ington pike, back of Covington. Lookerson stopped it and took the driver off frozen stiff. It took about four hours to resuscitate him. Columbus, Feb. 10.-It reached 17

below here, but ranged about 7 below. Much suffering was reported.

PITTSBURG, Feb. 10.—The weather here dropped to 10 degrees below zero and was expected to go lower, although it also ranged higher at different times.

LEADVILLE, Colo., Feb. 10.—This city was facing a desperate situation. The ordinary consumption of coal in the camp is 600 tons a day. There were but few earloads left and the railroads were blockaded on both sides of the city. Unless the Rio Grands or the Midland road could be quickly opened not only would the smelters and mines be closed down, but the pumps at the downtown mines would stop work, causing irreparable loss.

Colonel Cook was to go out at the head of 1,000 shovelers to clear the Rio Grande tracks to Malta, where a train of coal was stalled. It will probably take two days to clear the tracks to Malta, a distance of five miles. When that is finished the services of the shovelers will likely be offered to the Midland road.

DENVER, Feb. 10.-The wind was blowing a gale in the mountains, filling railroad cues with snow. Fresh slides occurred, covering the tracks with great piles of snow, rocks and fallen timber at various points. The outlook was more serious than at any time since the storm began.

In this city, the sun shone brightly, the temperature was higher than at any time during the past fortnight, and the snow melted rapidly.

TERRE HAUTE, reb. 10.—The weather throughout Vigo county was very cold. The thermometer registered 20 degrees below zero and had not risen higher than 12 below. There was much suffering among the poor.

LEXINGTON, Ky., Feb. 10.—At Lexington the thermometer registered 18 degree below zero, and during the entire day the maximum temperature was 5 below. At various points out in the country the thermometer was 25 below. This was three degrees below the record. The peach crop was reported killed.

TULEDO, Peb. 10. - NOt since 1000 was the ice so thick as on the Maumee bay and Lake Erie. It was from 12 to 14 luches thick. The weather had been the coldest in ten years, the thermometer going to 15 degrees below. One un-

CINCINNAII, Feb. 10.—The weather

bureau record here was broken-the instrument recording 16 degree below zero, with a downward tendency.

PHILADELPHIA, Feb. 10.—This city experienced zero weather, the coldest since February, 1896, when the mercury touched zero. Reports from the mountam districts of the state are that the weather was the most severe for sevral years. At Williamsport it was 12 below; Clearfield, 10; Altoona, 8; Hazleton. 8; Wilkesbarre, 6; Lock Haven, 10; Reading and Pottsville, 5.

Washington, Feb. 10, - Probably General Miller will have soon begun the attempt to occupy Iloilo on the island of Panay. No specific orders on this score had been sent him since the battle of Saturday and Sunday nor has he been heard from directly respecting that matter, but it was his known intention to make this important movement as soon as he felt that the conditions warranted it, and statements contained in the press reports from Manila convinced the officials here that General Otis at last had authorized the landing.

The best indication of that determination was the dispatch from Manila of the First regiment of Tennessee volunteer infantry for Iloilo. So long as the massing of insurgents around Manila appeared to convey a serious threat against its safety General Otis felt bound not to weaken his forces by sending any additional troops to Iloilo, but now that he has the insurgents demoralized he can proceed to carry out his plan for the occupation of the principal city in the Philippine group next to state camps. These troops had been on their transports so long that they were really unfit for active service until they had had an opportunity of stretching themselves ashore for a few days. The last time they had been ashore was at Honolulu enroute from San Francisco for Manila. From Honolulu they went to Manila harbor, but were not landed, being turned about at once and sent to Iloilo harbor. There the insurgents sent out word that they would not be allowed to land and ever since, until about a week ago, the men had been lying aboard ship in sight of land and thoroughly weary of the ship. Consul Andre and Lieutenant Murray Said the Filipino Leader Had Encouragement from Some Source.

CHICAGO, Feb. 10. -- Edward C. Andre, Belgian consul at Manila, passed through this city enroute to Washington from the Philippines. In an interview Mr. Andre said he had been much the battles with Aguinaldo's forces and developed in the course of the inquiry." he was not surprised they had been defeated so easily by the American troops. The ultimate result of the revolution. he said, would be the formation of a little military party among the Filipinos, but the greater part of the inhabitants of the island would appreciate American rule all the more because of Aguinaldo's defeat.

In Mr. Andre's opinion Aguinaldo was not the real leader of the insurgents. He believed the rebel was in the hands of other persons of greater intelligence. Mr. Andre is a strong supporter of the annexationists. He declared this was the only way to govern the Philippines. Mr. Andre came to this country for the purpose of organizing a syndicate to establish railroads in the Philippines and will remain in the United States about a month.

One Made by a Member of the Recent War Investigating Board-President Given Report.

WASHINGTON, Feb. 10.—The report of the war investigating committee was pleced in the hands of the president and the commission was dissolved. All of the members of the commission, including the secretary, Mr. Weightman, and the recorder, Colonel Davis, met by appointment, at the White House, and were received by the president. General Dodge, the chairman of the commission, presented the report and in receiving it congratulated the commissioners on the completion of their task.

Seated around the cabinet table, the members went over their work in a president read portions of the report he had expressed an interest. The couterence lasted about an hour and a half, and as the commissioners were about to leave the president stated that he was satisfied that each member had done his whole duty. He, himself, had rendered them every assistance possible, and said that they would bear witness that he had not sought to influence

The Cleveland Judge's Trial Reviewed by Attorneys.

CLEVELAND, Feb. 10. - After the examination of several unimportant witnesses in the disbarment proceedings against Judge Frank E. Dellenbaugh both sides rested, and the arguments were immediately begun. Attorney John R. White, for the prosecution,

"If Judge Dellenbaugh is found guilty," said Mr. White, "he cannot be driven from the bench, but he will be deprived of his usefulness as a judge. The question is whether professional proprieties and moralities have been infringed. If they have a verdict of guilty should be returned without sympathy for those affected."

Attorney J. H. Hogsett made the first argument for the detense. Mr. Hogsett reviewed some of the testimony to show that the charges against Dellenbaugh had not been substantiated. Attorney Alexander made the closing argument for the prosecution, and Judge W. W. Boynton closed for the defense.

### AGUINALDO BACKED.

Consul Andre and Lieutenant Murray Said the Filipino Leader Had Encouragement From Some Source.

CHICAGO, Feb. 10. -- Edward C. Andre, Belgian consul at Manila, passed through this city enroute to Washington from the Philippines. In an interview Mr. Andre said he had been much interested in reading the accounts of the battles with Aguinaldo's forces and he was not surprised they had been defeated so easily by the American troops. The ultimate result of the revolution, he said, would be the formation of a little military party among the Filipinos, but the greater part of the in-habitants of the island would appreciate American rule all the more because of Aguinaldo's defeat.

In Mr. Andre's opinion Aguinaldo was not the real leader of the insurgents. He believed the rebel was in the hands of other persons of greater intelligence. Mr. Andre is a strong supporter of the annexationists. He declared this was the only way to govern the Philippines. Mr. Andre came to this country for the purpose of organizing a syndicate to establish railroads in the Philippines and will remain in the United States about a month.

Boston, Feb. 10.—The Globe printed a letter received in this city from First Lieutenant Henry Murray, quartermaster of the First South Dakota volunteers, of General Otis' command in the Philippines, which says that as far back as the middle of December Aguinaldo and his followers were being en-

WASHINGTON, Feb. 10.—The report of the war investigating committee was pleced in the hands of the president and the commission was dissolved. All of the members of the commission, including the secretary, Mr. Weightman, and the recorder, Colonel Davis, met by appointment, at the White House, and were received by the president. General Dodge, the chairman of the commission, presented the report and in receiving it congratulated the commissioners on the completion of their task.

Seated around the cabinet table, the members went over their work in a general way, and at the request of the president read portions of the report which covered certain points in which he had expressed an interest. The couterence lasted about an hour and a half, and as the commissioners were about to leave the president stated that he was satisfied that each member had done his whole duty. He, himself, had rendered them every assistance possible, and said that they would bear witness that he had not sought to influence them in any manner or in the slightest

in speaking of the report to a reporter a prominent member of the commission said in part:

"The report does not whitewash. It criticizes, but not persons or things not warranted by the evidence before us.

"The president never saw a line of our report before he received it officially; not a single word. Nor, indeed, has he ever talked with any of the commission about it.

### NOT SO COLD TODAY.

Promise of the Weather Man For This Section.

NINE WERE FROZEN TO DEATH.

Cold Weather Finally Reached Atlantic Coast - Forty Degrees Below at Williston - Lowest Temperature In the United States-Ten Below at Pittsburg.

WASHINGTON, Feb. 10.-The cold wave which prevailed for 12 days in the central valleys, west and northwest, finally reached the Atlantic coast and extended from Maine to Florida. The line of zero temperature extended through Oklahoma, Arkansas, Central Tennessee and Central Virginia, while the lowest temperature reached was 40 degrees below zero at Williston, Minn.

In Florida the line of freezing temperature extended below Tampa, with a minimum temperature of 30 degrees at that place. In the districts from lowa and Missouri eastward, through the Ohio valley and almost to the Atlantic coast, the temperatures ranged from zero to 26 degrees below zero and were l from 1 degree to 6 degrees below the lowest temperatures previously recorded during the first decade of February. The temperatures, however, were moderating in the east gulf and South Atlantic states, and the central Rocky mountain region.

Fair weather prevailed with the exception of light snow in the lake regions and extreme northwest and rains and snows in the gulf states. In the north and middle plateus and the North Pacific coast region rains and snows continued, while clear weather prevailed to the southward.

Snow or rain was indicated from Eastern Texas northeastward to Western North Carolina and Southern Tennessee, and light snows in the northwest; elsewhere generally fair weather was expected to continue, except in the lake regions, where snow flurries were expected.

Brisk west to north winds were expected on the Middle and North Atlantic and fresh to brisk north to northeast winds on the South Atlantic coast.

Forecast For Today. Western Pennsylvania and Ohio-Gen eraily fair; not so cold; fresh westerly

CHICAGO, Feb. 10.—It reached 21 degrees below here.

Nine deaths from freezing were reported from Illinois and neighboring states as follows:

H. Bluensield, Chicago. Frank Dribriet, Joliet. Thomas Keegan, Rockford. Henry K. Fortune, Oskaloosa, Ia. Thomas Bridges, Princeton, Ky. Annie Miller, Louisville. Unidentified man, Toledo. George Hamilton, Joliet, Ills. Mary Lyne, Henderson, Ky.

Cincinnati, Feb. 10.—The mercury averaged 8 below here. Specials from Ohio, Kentucky and Indiana reported temperatures below zero, ranging from 2 to 26.

A coach was seen dashing down Lexington pike, back of Covington. Lookerson stopped it and took the driver off frozen stiff. It took about four hours to

resuscitate him. Columbus, Feb. 10.—It reached 17 below here, but ranged about 7 below. Much suffering was reported.

PITTSBURG, Feb. 10.—The weather here dropped to 10 degrees below zero and was expected to go lower, although it also ranged higher at different times. LEADVILLE, Colo., Feb. 10.—This city

ordinary consumption of coal in the camp is 600 tons a day. There were but few earloads left and the railroads were blockaded on both sides of the city. Unless the Rio Grands or the Midland road could be quickly opened not only would the smeiters and mines be closed down, but the pumps at the downtown mines would stop work, causing irreparable loss.

Coroner Cook was to go out at the head of 1,000 shovelers to clear the Rio Grande tracks to Malta, where a train of coal was stalled. It will probably take two days to clear the tracks to Malta, a distance of five miles. When that is finished the services of the shovelers will likely be offered to the Midland road.

DENVER, Feb. 10.-The wind was blowing a gale in the mountains, filling railroad cues with snow. Fresh slides occurred, covering the tracks with great piles of snow, rocks and fallen timber at various points. The outlook was more serious than at any time since the storm began.

In this city, the sun shone brightly, the comperature was higher than at any time during the past fortnight, and the snow melted rapidly.

TERRE HAUTE, reb. 10.—The weather throughout Vigo county was very cold. The thermometer registered 20 degrees below zero and had not risen higher than 12 below. There was much suffering among the poor.

LEXINGTON, Ky., Feb. 10.—At Lexington the thermometer registered 18 degree below zero, and during the entire day the maximum temperature was 5 below. At various points out in the country the thermometer was 25 below. This was three degrees below the record. The peach crop was reported killed.

TULED, Peb. 10. - NOt since 1000 was the ice so thick as on the Maumee bay ind Lake Erie. It was from 12 to 14 juches thick. The weather had been the coldest in ten years, the thermometer going to 15 degrees below. One unknown man was found frozen to death on the streets near the edge of the city.

KAASAS CITY, Feb. 10.-In this city, the calls upon charity were heavy. Reports of suffering on the Kansas prairies were general, the poor undergoing great hardships and numerous

cattle perishing.
CINCINNATI, Feb. 10.—The weather
bureau record here was broken—the instrument recording 16 degree below zero, with a downward tendency.

PHILADELPHIA, Feb. 10.-This city experienced zero weather, the coldest since February, 1896, when the mercury touched zerc. Reports from the mountam districts of the state are that the weather was the most severe for sevral years. NEW YORK, Feb. 10.—Inquiry into the death of Mrs. Kate J. Adams, who died after taking bromo seltzer containng cyanide of mercury which had been sent through the mails to Harry S. Cornish, physical director of the Knickerbocker Athletic club, was begun by Coroner Hart.

Little difficulty was experienced in securing a jury and then Harry Cornish was put on the stand. The taking of testimony occupied the entire day and he will go on the stand again today. According to District Attorney Gardiner, who was himself present at the inquiry for a brief period and who was represented by Assistant District Attorney Osborne, the testimony given by Cornish was not entirely satisfactory, nor the district atterney asserted, was it as complete as had been expected. Roland B. Molineaux's name was brought into the case at the start and Cornish's relations with Molineaux were gone into thoroughly.

After the adjournment District Atwas facing a desperate situation. The torney Gardner expressed dissatisfac-ordinary consumption of coal in the tion of Cornish's evasion of questions, and said:

"The fact that Cornish gave Mrs. Adams the poison is in evidence, and it behooves him to clear his own skirts. Under the law, his admission of giving the poison makes it possible to secure his indictment for murder. Whether or not this will be done remains, or course, at the discretion of this office."

Washington, Feb. 10. — Probably General Miller will have soon begun the attempt to occupy Iloilo on the island of Panay. No specific orders on this score had been sent him since the battle of Saturday and Sunday nor has he been heard from directly respecting that matter, but it was his known intention to make this important movement as soon as he felt that the conditions warranted it, and statements contained in the press reports from Manila convinced the officials here that General Otis at last had authorized the landing.

The best indication of that determination was the dispatch from Manila of the First regiment of Tennessee volunteer infantry for Iloilo. So long as the massing of insurgents around Manila appeared to convey a serious threat against its safety General Otis felt bound not to weaken his forces by sending any additional troops to Iloilo, but now that he has the insurgents demoralized he can proceed to carry out his plan for the occupation of the principal city in the Philippine group next to Manila. All members of the board and Engineer George were present when the meeting was called to order, and the president stated that the object of the meeting was to open the bids for furnishing sewer pipe for sewer district No. 2.

To complete the work of building the sewer it will require seven miles of pipe or 25 car loads, and several bids had been

The board carefully considered all bids for some time, and at the close of the meeting decided to reserve their decision from the public until next Tuesday morning, as they will have another meeting Monday evening and again look over the bids.

It is the intention of the sewer commissioners to get the work on Tanyard run sewer started as early in the spring as possible, and all necessary steps will be taken to get everything in readiness. The residents of sewer district No. 2 are very much elated over the fact that the sewering of the district is at last in sight as many of them have labored for years to accomplish the purpose.

Their is no doubt that the sewer is very much needed, and when the work is completed it will do much toward adding to the general good health of the city.

Council will act in harmony with the commissioners, and as soon as the plans are all completed will give the commissioners all the assistance in their power in order to see the work completed as rapidly as possible.

WILL MEET AGAIN ON MONDAY

Then the Sewer Commissioners Will Make Known the Name of the Firm to Furnish Seven Miles of Pipe For the Tanyard District.

The sewer commissioners held an interesting session yesterday afternoon in the office of the secretary, F. H. Croxall.

All members of the board and Engineer George were present when the merting was called to order, and the president stated that the object of the meeting was to open the bids for furnishing sewer pipe for sewer district No. 2.

To complete the work of building the sewer it will require seven miles of pipe or 25 car loads, and several bids had been received.

The board carefully considered all bids for some time, and at the close of the meeting decided to reserve their decision from the public until next Tuesday morning, as they will have another meeting Monday evening and again look over the bids.

It is the intention of the sewer commissioners to get the work on Tanyard run sewer started as early in the spring as possible, and all necessary steps will be taken to get everything in readiness. The residents of sewer district No. 2 are very much elated over the fact that the sewering of the district is at last in sight as many of them have labored for years to accomplish the purpose.

Their is no doubt that the sewer is very much needed, and when the work is completed it will do much toward adding to the general good health of the city.

Council will act in harmony with the commissioners, and as soon as the plans are all completed will give the commissioners all the assistance in their power in order to see the work completed as in attendance. rapidly as possible.

When Money Is Paid to Local Manufacturers.

ORGANIZATION THEN EXPECTED

The Understanding Is That the Meeting Will Be Held In New York and as Soon as the Accounts Are Settled Directors and Officers Will Be Elected.

A well informed manufacturer in speaking of the organization of the American Potteries company, said to the NEWS REVIEW :

"The information I have, and I believe it to be the information under which I am to act, says that when the money is ready for payment the representatives of all concerns are to be called to New York. There payment in stock and money will be made as soon as possible, the eastern and western potters receiving their respective shares as soon as the necessary papers are signed. Then, if there is no delay, the stockholders will elect directors, and so far as the majority of East Liverpool men are concerned the business will be done and they can return home. I have heard that there will be no trouble attending either the election of directors or the organization of that body, and the result will be satisfactory to all parties concerned."

#### MILES HAS A TURN.

If General Miles is honest in the statements he has been making through his friends, the New York newspapers, keeping the school building thoroughly he has nothing to fear from the board heated and succeeded very well, and appointed by President McKinley to this morning the building was in a comlook into the charges. The gentlemen are army officers, and men whose integrity has never been doubted, and the general cannot have good cause for complaint. It may take weeks out. to place the responsibility, but when it is done the public will be satisfied.

### MR. GROSVENOR'S POSITION.

General Grosvenor has announced, according to Washington dispatches, train could not leave Pittsburg until the that he will not be a candidate for govenor unless the position is given him without opposition. If the story be true the veteran's finish is in plain this place for 20 years, has no record view even now, for the man who will lower than six degrees below zero. The carry the Republican banner in Ohio this year must fight for the position, showing the rank and file of the party that he is in earnest and seeks the position because he expects to fill it. Just now, however, General Grosvenor will lose nothing by withdrawing from the

### REPUBLICAN RESPONSIBILITY.

The next congress, upon the shoulders of whose members will rest the responsibility of determining the policy for the Philippines, will be Republican, and the action taken will be upon Republican lines. To the present time President McKinley has conducted affairs in a manner nothing short of masterly, and he will continue in the same manner. With no Democratic power in house or senate to hamper and sway him he can carry out the policy that may be laid down without fear of interruption. There is therefore abundant room for the belief that the Philippine problem will not only be solved in short order, but to the satisfaction of the country.

### NOT AN ISSUE.

Aguinaldo, the presumptuous leader of the Philipinos, should not be an issue in the settlement of the questions now facing this government in the far east. This country does not care a snap for him, except that he must do no more mischief, for it is his people who must be considered. They have a right to expect humane treatment from the most humane nation on earth, and they will get it, but not until they have forsaken the banner of their chief and concluded that the folds of the Stars and Stripes are much safer as a place of refuge. As for Aguinaldo, his time will come. It may be delayed a few months, but he has no reason to expect anything from this government at any time.

Wanted Her Money's Worth. Bridget Rafferty had served the best years of her life as a cook, and now that she was "wearin awa" and an operation became necessary she haughtily declined to go to a ward, but took one of the best rooms in the hospital. The operation was successful, but the patient was allowed very little food. During her convalescence she made frequent use of the electric bell at her bed. The nurse would fly to her, to be greeted with some trifling question or the remark, "I only wanted to know if you

were there. As such frequent use of her bell suggested to the matron on that floor that the nurse was neglecting her patient, the nurse remonstrated, and received the following unique explanation:

"Well, you see. miss, here I am pay ing \$30 a week, and I'm not seeing any thing, I'm not hearing anything, and miss, I'm not eating anything. So I just ring the bell to get my money's worth, and, anyways, I enjoy hearing it ring. "-San Francisco Argonaut.

#### MILES HAS A TURN.

If General Miles is honest in the statements he has been making through his friends, the New York newspapers. he has nothing to fear from the board appointed by President McKinley to look into the charges. The gentlemen fortable condition. are army officers, and men whose integrity has never been doubted, and the general cannot have good cause for complaint. It will answer at least one scandal is in sight. It may take weeks to place the responsibility, but when it is done the public will be satisfied.

### MR. GROSVENOR'S POSITION.

General Grosvenor has announced, according to Washington dispatches, that he will not be a candidate for govenor unless the position is given him without opposition. If the story be true the veteran's finish is in plain view even now, for the man who will carry the Republican banner in Ohio this year must fight for the position, showing the rank and file of the party that he is in earnest and seeks the position because he expects to fill it. Just now, however, General Grosvenor will lose nothing by withdrawing from the

### REPUBLICAN RESPONSIBILITY.

The next congress, upon the shoulders of whose members will rest the responsibility of determining the policy for the Philippines, will be Republican, and the action taken will be upon Republican lines. To the present time President McKinley has conducted affairs in a manner nothing short of masterly, and he will continue in the same manner. With no Democratic power in house or senate to hamper and sway him he can carry out the policy that may be laid down without fear of interruption. There is therefore abundant room for the belief that the Philippine problem will not only be solved in short order, but to the satisfaction of the country.

### NOT AN ISSUE.

Aguinaldo, the presumptuous leader of the Philipinos, should not be an issue in the settlement of the questions now facing this government in the far east. This country does not care a snap for him, except that he must do no more mischief, for it is his people who must be considered. They have a right to expect humane treatment from the most humane nation on earth, and they will get it, but not until they have forsaken the banner of their chief and concluded that the folds of the Stars and Stripes are much safer as a place of refuge. As for Aguinaldo, his time will come. It may be delayed a few months, but he has no reason to expect anything from this government at any time.

Boy Seriously Injured at the Thompson Pottery.

TWISTED BADLY LEG

Langley Was Scuffling Near a Cup Jigger With Another Youth When He Received a Iwist That Will Keep Him In Bed For Weeks.

A serious accident occurred last evening at the C. C. Thompson pottery.

A boy named Langley, who is employed at the pottery in running molds, last evening about 6 o'clock was scuffling in front of a cup jigger with another boy, and in the scuffle Langley was pushed too close to the bench and his foot caught in the machinery under the bench, giving his leg a terrible wrench. In order to extricate him it was necessary to stop the machinery, and it was done as soon as possible, as the spectators expected to see the boy's leg

As soon as the machinery had been stopped the boy was removed from his perilous position, and it was found he had been severely injured.

The patrol wagon was called and he was taken to his home in Ogden street and a physician summoned, and it was found that he had dislocated his ankle joint, while the ankle ligaments were badly torn and his leg had been badly wrenched. It will be at least three or four weeks before the boy will be able to

#### MUNCHAUSENISMS.

This morning as Attorney George D. Ingram was making his usual trip across the river from Congo to town he met driven out with great loss. with an unpleasant experience. When he reached the Ohio shore in his skiff he alighted on the shore ice which was not strong enough to bear his weight, and he was plunged into the icy water. A less experienced waterman than he would probably have lost his life, as he was alone at the time, but instead of climbing upon the adjacent ice, all too frail to support his weight, he used an ice pick until he got to stronger ice before he attempted to climb upon it.

Before he could reach his office his clothing was frozen stiff.

Langley Was Scuffling Near a Cup Jigger With Another Youth When He Received a Iwist That Will Keep Him In Bed For Weeks.

A serious accident occurred last evening at the C. C. Thompson pottery.

A boy named Langley, who is employed at the pottery in running molds. last evening about 6 o'clock was scuffling in front of a cup jigger with another boy, and in the scuffle Langley was pushed too close to the bench and his foot caught in the machinery under the bench, giving his leg a terrible wrench. In order to extricate him it was necessary to stop the machinery, and it was done as soon as possible, as the spectators expected to see the boy's leg

As soon as the machinery had been stopped the boy was removed from his perilous position, and it was found he had been severely injured.

The patrol wagon was called and he was taken to his home in Ogden street and a physician summoned, and it was found that he had dislocated his ankle joint, while the ankle ligaments were badly torn and his leg had been badly wrenched. It will be at least three or four weeks before the boy will be able to be out.

IT WILL LAST FIFTEEN DAYS

The Observation Began Yesterday and Is Now In Progress-The Cold Weather Served to Keep Them From Making a Great Deal of Noise.

Nane Choo Yit, or the New Year, is being celebrated by the Chinese colony in this city. Yesterday was New Year's day and the festivities characteristic of the race, will last until February 24. or 15 days. The natives in this city did not celebrate the day in the manner in which they intended to owing to the cold weather A large supply of fire crackers had been purchased, but these will be saved until the Fourth of July.

A reporter of the News Review this morning called on John Smith, one of the best educated Chinese in the city, and in speaking of the celebration he

"There is one feature about the new year's worship which is interesting. The ordinary people worship Pooh Sot. while the royal family worship Sin, the great god. Sin represents the highest divine authority, while Pooh Sot is a mediator, the same as Christ in the Christian religion. To be more clear, Sin acts in the same capacity as the president, while Pooh Sot is like a governor, presiding over smaller provinces. The royal family only has access to his highness, while the small fry must be content to lay their troubles before Pooh Sot. The heathen Chinese make fun of the Christian religion and they say you Americans are no good. A few of us, however, have studied your religion and have changed our minds, so today, instead of worshiping idols we start the new year by worshiping God, the only true Deity," said John.

"When we wish each other a happy new year in the native tongue we say, 'Gong He Fot Toy.' "

A GLYCERINE STORY.

They Are Now Taking It to Scio on Sleds.

The following from the Toronto Tribune shows that nitro-glycerine is needed in the Scio field.

A skiff load of nitro glycerine was landed at Markle last night from points up the river, and was loaded in a sled for transportation to the Scio oil field. When the sled got out in the country some distance they were compelled to return to Toronto on account of breaking down. The team started out again later in the day."

THE GLASS

Has Arrived For the New Christian Church.

The glass for the Christian church has arrived, and just as soon as the weather permits it will be placed in position. The heaters are nearly completed, and if the weather was favorable it would only be a short time until the church was ready for occupancy. When the weather moderates the work on the church will be pushed, and it is hoped to have it finished in a few weeks.

SOCIAL CONDITIONS AND CUSTOMS.

The Dark Eyed Spanish Beauties. Still Faithful to the Lost Cause. Have No Smiles For the American soldier-The Midday Siesta-Fortifications and Odd Structures.

[Copyright, 1899, by the Author.] III.

When one begins to tell about the meer old capital city of the Philippines et here on the western coast of Luzon and at the mouth of the noble Pasig, whose waters carry down from the interior golden grains of sand, one has an almost endless theme. It is a story of fascinating interest. Every one of the 378 years which have elapsed since the discovery of these islands by Magellan and each one of the 327 years which have been numbered with the past since first the banner of Castile and the holy cross were planted here is filled with events which in themselves would fill volumes. In this tropical clime, beneath the sun's scorching rays, which come down so straight that a sentinel cannot dodge them, there are many things of an intense and absorbing interest. When one tires of listening to the horrors of the past and to the dark tales of Spanish oppression and misrule, one can turn his mind elsewhere and lose no interest because of the change.

Indeed Manila is a somber place. The great walls, fortifications and armaments to be seen everywhere keep the idea of defenses uppermost in the mind. Manila has many fine boulevards, and on these in the cool hours of the evening Manila's society may be seen driving along in the queer open carriages in which one lounges rather than sits while riding. The spirited little ponies jog along merrily. The Spanish ladies, some of whom are extremely handsome,

tinued down to the present day: New had harbor improvements under way above the tide. Binondo, Santa Cruz will complete these improvements. and San Miguel are the districts lying the river. Binondo is the center of Manila's commerce.

Running along bay and river, the two walls of the old city form an acute angle. Those walls are connected by others on the land side, which by half a dozen angles cover the mile and a half between bay and river. On the bay side the fortifications extend over a mile, and on the Pasig half that distance. Within the main city are inclosed probably three square miles of territory.

The walls are pierced by eight gates. On the bay side are Puerto Santa Lucia and Puerto Portigo; on the land side. fronting the fortifications, are Puerto Real and Puerto Del Parian; on the land side, overlooking the river, are Puerto Isabel and Puerto Santo Domingo, and on the Pasig side, looking toward the point, are Puerto Adriana and Puerto Almaune. All of these thrice century old gates have their drawbridges, lookouts and other mediæval arrangements, and while none has been closed for some years, the old machinery remains in perfect condition. Surrounding the whole fortifications is a system of great moats, flooded by the tide.

There are many interesting public buildings, churches and private dwellings in Old Manila. The capitol, or the ancentimento, as the Spanish call it, is located here, and where Augustin formerly ruled our government officials now direct affairs on these islands. The cathedral of Old Manila was built in 1578, and, although it has endured several earthquakes, which have shattered its towers, it still stands.

SENATORS HAD A SHARP TILT.

Allen Commented Upon the Methods of the Appropriations Committee.

WASHINGTON, Feb. 10.-The senate had under consideration the legislative, the appropriation for the support of the office of the supervising architect of the treasury and that official was criticized for the delay in the construction of public buildings throughout the United States.

A speech made by Mr. Allen (Neb.). in which he commented unfavorably upon the methods of the appropriat ons committee, induced a rejoinder from Mr. Chandler (N. H.), which resulted in a sharp tilt between the two semators. Fifty-one pages of the pending bill were disposed of before the senate went into executive session for the remainder of the day.

"Dr." Stanley Weise of Wilkesbarre was arrested and sent to jail recently charged with practicing medicine with out a license. The arrest was upon complaint of Mrs. Peter Cox, whose husband was under the doctor's treatment for rheumatism.

The treatment was very novel. The complainant alleges that the doctor procured a good sized barrel, which he nearly filled with hot water. Then he there on a bucket, with the water up to his neck. Mrs. Cox swore that this treatment was continued for three nights in succession and also that Dr. Weise had smeared his patient all over with a certain kind of grease, mixed with little chips, and gave him two bottles of whisky mixed with ants to drink. Cox was to take half a wineglassful of the liquor three times a day. In normal times there is a great deal and other European residents here, and out in the delightful San Miguel, where dwell the wealth and society of Manila, there were many gay festivities, but war put an end to all that, and the evening drives and promenades seem to be the only recreations in which Manila now indulges. Even cockfighting, the great national sport of the islands, seems to have fallen into decay, and if one wants a little amusement out of the ordinary one is at his wits' end to

The midday siesta, which for a time threatened to be given up, is still enjoyed by everybody who aims to be classed as somebody. But this midday sleep of Manila does not mean that the city is as lazy as it was under Spanish rule, when it slept nearly all of the day. Under the present regime early in the morning and in the evening the city is astir. The shops at eventide are ablaze with brilliant lights, the Escolta is crowded with pedestrians, and the Cascada, the Metelle and the Lunetta arc filled with gay equipages. Our soldiers are falling into the ways of the midday tiesta, and our officials have come to go in this land, where the sun con- nondo. tinucusly pours its rays straight down. Like all slow going Asiatic towns, Manila is today very much the same as it has been for centuries, though the coming of the Americans has infused some new life and vigor into the sleepy old place. The original town, founded by Legaspi, is known as Old Manila, and the bay. This is the famous walled city whose fortifications were begun loaded and unloaded in the river. Prior

SENATORS HAD A SHARP TILT.

Allen Commented Upon the Methods of the Appropriations Committee.

WASHINGTON, Feb. 10.-The senate had under consideration the legislative, executive and judicial appropriation bill. A lively debate was precipitated over the appropriation for the support of the office of the supervising architect of the treasury and that official was criticized for the delay in the construction of public buildings throughout the United States.

A speech made by Mr. Allen (Neb.), in which he commented unfavorably upon the methods of the appropriat ons committee, induced a rejoinder from Mr. Chandler (N. H.), which resulted in a sharp tilt between the two sepators. Fifty-one pages of the pending bill were disposed of before the senate went into executive session for the remainder of the day.

Wilkesbarre Physician's Odd Cure For Rheumatic Patient.

"Dr." Stanley Weise of Wilkesbarre was arrested and sent to jail recently charged with practicing medicine with out a license. The arrest was upon com plaint of Mrs. Peter Cox, whose hus band was under the doctor's treatment for rheumatism.

The treatment was very novel. The complainant alleges that the doctor procured a good sized barrel, which he nearly filled with hot water. Then he put Cox in the barrel and made him sit there on a bucket, with the water up to his neck. Then, she says, the doctor put in three hot bricks for Ccx's feet, poured in a peck of sand, and the patient was next treated with two quarts of salt. with a final mixture consisting of one quart of vinegar mixed with ants and

husband in the "pickling" process from 7 to 8 o'clock, standing beside the barrel the whole time wiping the perspiration from the sweltering patient's face and telling him the cure was progressing nicely. When the hour was up and the color of the patient was turning from purple to blue, Cox was lifted out of the barrel and placed in bed for the second part of the cure. This consisted of dressing him with four shirts, two pairs of drawers, two pairs of trousers and covering him snugly with two blankets. two quilts and two comforters.

Mrs. Cox swore that this treatment was continued for three nights in succession and also that Dr. Weise had smeared his patient all over with a certain kind of grease, mixed with little chips, and gave him two bottles of whisky mixed with ants to drink. Cox was to take half a wineglassful of the liquor three times a day. The poor man submitted heroically to the strange treatment, but it did not benefit him. and he is now suffering more than ever. and to this is due the arrest. Dr. Weise had nothing to say except that the treatment was all right. He has no license. - Philadelphia Press.

A New Whooping Cough Bacillus.

An Italian investigator, Professor Livio Vincenzi, at Sassari claims to have discovered the above. He found it, as stated in The Deutsche Medizinische Wochenschrift, in the expectorations of children suffering from whooping cough, in some cases it being present in a very large quantity, while it was absent in other processes of sickness. Professor Vincenzi ascertained by a series of researches the peculiar qualities of the little organism, but he did not succeed in causing by inoculation on animals the same disease as in human beings. It is, however, a well known fact that whooping cough never occurs in animals. - Public Opinion.

When one begins to tell about the meer old capital city of the Philippines et here on the western coast of Luzon and at the mouth of the noble Pasig, whose waters carry down from the interior golden grains of sand, one has an almost endless theme. It is a story of fascinating interest. Every one of the 378 years which have elapsed since the discovery of these islands by Magellan and each one of the 327 years which have been numbered with the past since first the banner of Castile and the holy cross were planted here is filled with events which in themselves would fill volumes. In this tropical clime, beneath the sun's scorching rays, which come down so straight that a sentinel cannot dodge them, there are many things of an intense and absorbing interest. When one tires of listening to the horrors of the past and to the dark tales of Spanish oppression and misrule, one can turn his mind elsewhere and lose no interest because of the change.

Indeed Manila is a somber place. The great walls, fortifications and armaments to be seen everywhere keep the idea of defenses uppermost in the mind. Manila has many fine boulevards, and on these in the cool hours of the evening Manila's society may be seen driving along in the queer open carriages in which one lounges rather than sits while riding. The spirited little ponies jog along merrily. The Spanish ladies, ome of whom are extremely handsome,

Manila, commercial Manila, lies on the which when completed will provide above the tide. Binondo, Santa Cruz and San Miguel are the districts lying along the Pasig, with San Sebastian, Sampolia and other districts back from the river. Binondo is the center of Manila's commerce.

The fortifications are among the most interesting features of Old Manila. Running along bay and river, the two walls of the old city form an acute angle. These walls are connected by others on the land side, which by half a dozen angles cover the mile and a half between bay and river. On the bay side the fortifications extend over a mile, and on the Pasig half that distance. Within the main city are inclosed probably three square miles of territory.

The walls are pierced by eight gates. On the bay side are Puerto Santa Lucia and Puerto Portigo; on the land side, fronting the fortifications, are Puerto Real and Puerto Del Parian; on the land side, overlooking the river, are Puerto Isabel and Puerto Santo Domingo, and on the Pasig side, looking toward the point, are Puerto Adriana and Puerto Almaune. A local paper is returning to its old tactics. Last night it contained an article relative to the National Guard which appeared in the News Review earlier in the week. It can find no better place if it would have news.

The grand jury at Lisbon wound up its business today by visiting the jail. It is expected that the usual report will be made, and the structure will be condemned. Clerk McNutt is thinking of having the report printed and keeping a number of copies on hand. It will save some work in preparing a new one, since each is almost identical with that which preceded it.

James Heckathorn died yesterday at his home in Fifth street from a paralytic stroke. Deceased was employed as a kilnhand at the Standard pottery, and was well and favorably known. Four sons are left to mourn his loss. The funeral will take place tomorrow afternoon at 2:30 o'clock, and will be in charge of the Red Men, of which order the deceased was a member. Reverend Swift will officiate.

Charles Bucey was arrested last evening by Officer McCullough in Sixth street. He was very drunk and when found by the officer was almost numb. He was taken to jail where he spent the night, and this morning he was asked for a contribution of \$6.60 which he paid. This was the only arrest made. As soon as the case was disposed of Mayor Bough went home as he stated it was warmer there than it was at city hall.

TWO CENTS

### NOT SO COLD TODAY.

Promise of the Weather Man For This Section.

NINE WERE FROZEN TO DEATH.

Cold Weather Finally Reached Atlantic Coast - Forty Degrees Below at Williston-Lowest Temperature In the United States-Ten Below at Pittsburg.

WASHINGTON, Feb. 10.-The cold wave which prevailed for 12 days in the central valleys, west and northwest, finally reached the Atlantic coast and extended from Maine to Florida. The line of zero temperature extended through Oklahoma, Arkansas, Central Tennessee and Central Virginia, while the lowest temperature reached was 40 degrees below zero at Williston, Minn.

In Florida the line of freezing temperature extended below Tampa, with a minimum temperature of 30 degrees at that place. In the districts from Iowa and Missouri eastward, through the Ohio valley and almost to the Atlantic coast, the temperatures ranged from zero to 26 degrees below zero and were from 1 degree to 6 degrees below the lowest temperatures previously recorded during the first decade of February. The temperatures, however, were moderating in the east gulf and South Atlantic states, and the central Rocky mountain region.

Fair weather prevailed with the exception of light snow in the lake regions and extreme northwest and rains and snows in the gulf states. In the north and middle plateus and the North Pacific coast region rains and snows continued, while clear weather prevailed to the southward.

Snow or rain was indicated from Eastern Texas northeastward to Western North Carolina and Southern Tennessee, and light snows in the northwest; elsewhere generally fair weather was expected to continue, except in the lake regions, where snow flurries were expected.

Brisk west to north winds were expected on the Middle and North Atlantic and fresh to brisk north to northeast winds on the South Atlantic coast.

Forecast For Today.

Western Pennsylvania and Ohio-Gen eraily fair; not so cold; fresh westerly

CHICAGO, Feb. 10.-It reached 21 de-

grees below here. Nine deaths from freezing were reported from Illinois and neighboring states as follows:

H. Bluensield, Chicago. Frank Dribriet, Joliet. Thomas Keegan, Rockford. Henry K. Fortune, Oskaloosa, Ia. Thomas Bridges, Princeton, Ky. Annie Miller, Louisville. Unidentified man, Toledo. George Hamilton, Joliet, Ills. Mary Lyne, Henderson, Ky. CINCINNATI, Feb. 10 .- The mercury

averaged 8 below here. Specials from Ohio, Kentucky and Indiana reported temperatures below zero, ranging from 2 to 26.

A coach was seen dashing down Lexington pike, back of Covington. Lookerson stopped it and took the driver off frozen stiff. It took about four hours to

resuscitate him. Columbus, Feb. 10.-It reached 17 below here, but ranged about 7 below. Much suffering was reported.

PHTTSBURG, Feb. 10.—The weather here dropped to 10 degrees below zero and was expected to go lower, although it also ranged higher at different times. LEADVILLE, Colo., Feb. 10.—This city

was facing a desperate situation. The ordinary consumption of coal in the camp is 600 tons a day. There were but few earloads left and the railroads were blockaded on both sides of the city. Unless the Rio Grands or the Midland road could be quickly opened not only would the smeiters and mines be closed down, but the pumps at the downtown mines would stop work, causing irreparable loss.

Colonel Cook was to go out at the head of 1,000 shovelers to clear the Rio Grande tracks to Malta, where a train of coal was stalled. It will probably take two days to clear the tracks to Malta, a distance of five miles. When that is finished the services of the shovelers will likely be offered to the Midland road.

DENVER, Feb. 10 .- The wind was blowing a gale in the mountains, filling railroad cuts with snow. Fresh slides occurred, covering the tracks with great piles of snow, rocks and failen timber at various points. The outlook was more serious than at any time since the storm began.

In this city, the sun shone brightly, the cemperature was higher than at any time during the past fortnight, and the snow melted rapidly.

TERRE HAUTE, reb. 10 .- The weather throughout Vigo county was very cold. The thermometer registered 20 degrees below zero and had not risen higher than 12 below. There was much suffering among the poor.

LEXINGTON, Ky., Feb. 10.—At Lexington the thermometer registered 18 degree below zero, and during the entire day the maximum temperature was 5 below. At various points out in the country the thermometer was 25 below. This was three degrees below the record. The peach crop was reported killed.

the ice so thick as on the Maumee bay and Lake Erie. It was from 12 to 14 inches thick. The weather had been the coldest in ten years, the thermometer going to 15 degrees below. One unknown man was found frozen to death on the streets near the edge of the city.

KANSAS CITY, Feb. 10.-In this city, the calls upon charity were heavy. Reports of suffering on the Kansas prairies were general, the poor undergoing great hardships and numerous

cattle perishing.
CINCINNATI, Feb. 10.—The weather bureau record here was broken-the instrument recording 16 degree below zero, with a downward tendency.

PHILADELPHIA, Feb. 10.—This city experienced zero weather, the coldest since February, 1896, when the mercury touched zero. Reports from the mountam districts of the state are that the weather was the most severe for sevral years. At Williamsport it was 12 below; Clearfield, 10; Altoona, 8; Hazleton, 8; Wilkesbarre, 6; Lock Haven, 10; Reading and Potrsville, 5.

### KEENAN ELECTED.

The littsburg Man Unanimously Chosen President of the League of American Wheelmen.

PROVIDENCE, Feb. 10.-Jacksonville was selected as the place for holding he next L. A. W. national assembly. homas J. Keenan of Fittsburg was I cred president. The executive comnittee recommended that the L. A. W. ontrol racing for another year.

Mr. Keenan was elected by an unoninous vote. He made a short speech in which he thanked the assembly for the nonor and said that furtherance of the interests of the league would be his only purpose.

Herbert B. Foultz of New Jersey was elected first president and Robert T. Kingsbury of New Hampshire second vice president, James W. Tattersall reasurer and the following auditing committee: Howard L. Perkins of Cortland, Thomas M. Skiles of Maryand and Clarence W. Small of Port-

Jacksonville was selected with the proviso that if satisfactory arrangements can not be made the executive committee is authorized to change the olace.

The secretary's report showed that the membership has fallen off. Last vear 77.091 members were enrolled, including applicants and renewals. The report of Treasurer J. C. Tattersall showed the league to be on a firm financial bas.s.

### HARRY CORNISH LIABLE.

Gardner Didn't Like His Evasion of Some Question at the Adams Poison Inquest.

NEW YORK, Feb. 10.-Inquiry into the death of Mrs. Kate J. Adams, who died after taking bromo seltzer containng cyanide of mercury which had been sent through the mails to Harry S. Cornish, physical director of the Knickerbocker Athletic club, was begun by

Coroner Hart. Little difficulty was experienced in securing a jury and then Harry Cornish was put on the stand. The taking of testimony occupied the entire day and he will go on the stand again today. According to District Attorney Gardiner, who was himself present at the inquiry for a brief period and who was represented by Assistant District Attorney Osborne, the testimony given by Cornish was not entirely satisfactory, nor the district atterney asserted, was it as complete as had been expected. Roland B. Molineaux's name was brought into the case at the start and Cornish's relations with Molineaux

were gone into thoroughly.

After the adjournment District Attorney Gardner expressed dissatisfaction of Cornish's evasion of questions,

and said: "The fact that Cornish gave Mrs. Adams the poison is in evidence, and it behooves him to clear his own skirts. Under the law, his admission of giving the poison makes it possible to secure his indictment for murder. Whether or not this will be done remains, or course, at the discretion of this office."

### HONORS TO GARCIA.

His Body Reached Havana and Taken to the Palace-Salutes Fired-Millcary Escort.

HAVANA, Feb. 10.—The United States gunboat Nashville, bearing the body of General Calixto Garcia, steamed slowly into Havana harbor, the guns of Morro castle and the American squadron saluting her. The solemn booming of cannon announced the arrival to the expectant city. Flags were lowered.

By the time the gunboat had come to anchor thousands of people crowded the water front. The marines lowered the casket to the tug chartered by the Cuban committee, and Garcia's remains, hereafter to be in the keeping of the Cubans, were borne to the La Machina

An escort of United States soldiers conveyed the body to the palace.

### Fearfuly Cold at St. Louis.

St. Louis, Feb. 10.-Not since 1884 was the weather so cold in St. Louis and vicinity. The thermometer was 19 below. Since Wednesday the river has risen three feet, indicating a gorge at some points below.

Were Not Aggressive Except on Extreme Right and Left.

EVIDENTLY WERE REINFORCED.

American Soldiers Were Anxious to Get at Them Officer Ordered Home With Colonel Smith's Body-An Attack on Iloilo Was Expected.

Manila, Feb. 10.—The Filipinos were lying low except on the extreme left and right. They were evidently concentrating between Caloocan and Malabon. Judging from appearances, the Filipinos were being reinforced by better drilled men from the northern provinces. In front of Caloocan they were thick.

The American troops felt the heat at mid ay in the open, but they were anxious to proceed. The soldiers were impatient of restraint while in sight of the enemy.

The Filipinos were entrenching themselves on the left of Caloocan.

Sergeant Major Smith of the Tennessees was ordered to proceed to the United States by the next transport as as excort of the remains of Colonel William C. Smith of the First Tennessee volunteers, who died of apoplexy during the recent battle with the Filipinos.

Washington, Feb. 10. — Probably General Miller will have soon begun the attempt to occupy Iloilo on the island of Panay. No specific orders on this score had been sent him since the battle of Saturday and Sunday nor has he been heard from directly respecting that matter, but it was his known intention to make this important movement as soon as he felt that the conditions warranted it, and statements contained in the press reports from Manila convinced the officials here that General Otis at last had authorized the landing.

The best indication of that determination was the dispatch from Manila of the First regiment of Tennessee volunteer infantry for Iloilo. So long as the massing of insurgents around Manila appeared to convey a serious threat against its safety General Otis felt bound not to weaken his forces by sending any additional troops to Iloilo, but now that he has the insurgents demoralized he can proceed to carry out his plan for the occupation of the principal city in the Philippine group next to Manila. This movement might have been made some time ago, but for the necessity the commanding general was under of withdrawing the Fifty-first Iowa regiment from before Iloilo.

These troops had been on their transports so long that they were really unfit for active service until they had had an opportunity of stretching themselves ashore for a few days. The last time they had been ashore was at Honolulu enroute from San Francisco for Manila. From Honolula they went to Manila harbor, but were not landed, being turned about at once and sent to Iloilo harbor. There the insurgents sent out word that they would not be allowed to land and ever since, until about a week ago, the men had been lying aboard ship in sight of land and thoroughly weary of the ship. Now, however. they are once again on shore at Manila.

General Miller has with him the Eighteenth infantry and Battery G of the Sixth artillery, and these will be reinforced in the course of 24 hours by the First Tennessee regiment, making r force quite equal to the occupation of

### AGUINALDO BACKED.

Consul Andre and Lieutenant Murray Said the Filipino Leader Had Encouragement From Some Source.

CHICAGO, Feb. 10. -- Edward C. Andre, Belgian consul at Manila, passed through this city enroute to Washington from the Philippines. In an interview Mr. Andre said he had been much interested in reading the accounts of may seem to be warranted by the facts the battles with Aguinaldo's forces and developed in the course of the inquiry.' he was not surprised they had been defeated so easily by the American troops. The ultimate result of the revolution, he said, would be the formation of a little military party among the Filipinos, but the greater part of the inhabitants of the island would appreciate American rule all the more because of Aguinaldo's defeat.

In Mr. Andre's opinion Aguinaldo was not the real leader of the insurgents. He believed the rebel was in the hands of other persons of greater intelligence. Mr. Andre is a strong supporter of the annexationists. He declared this was the only way to govern the Philippines. Mr. Andre came to this country for the purpose of organizing a syndicate to establish railroads in the Philippines and will remain in the United States about a month.

Boston, Feb. 10.-The Globe printed a letter received in this city from First Lieutenant Henry Murray, quartermaster of the First South Dakota volunteers, of General Otis' command in the Philippines, which says that as far back as the middle of December Aguinaldo and his followers were being encouraged and aided by some outside source, and that the opening of hostili- now be presented on its merits. It is a ties was expected by the United States relief to have it laid aside for the period

### DENIAL OF WHITEWASH.

One Made by a Member of the Recent War Investigating Board-President Given R port.

WASHINGTON, Feb. 10.—The report of the war investigating committee was pleced in the hands of the president and the commission was dissolved. All of the members of the commission, insluding the secretary, Mr. Weightman, and the recorder, Colonel Davis, met by appointment, at the White House, and were received by the president. General Dodge, the chairman of the commission, presented the report and in receiving it congratulated the commissioners on the completion of their task.

Seated around the cabinet table, the members went over their work in a general way, and at the request of the president read portions of the report which covered certain points in which he had expressed an interest. The couterence lasted about an hour and a half, and as the commissioners were about to leave the president stated that he was satisfied that each member had done ms whole duty. He, himself, had rendered them every assistance possible, and said that they would bear witness that he had not sought to influence them in any manner or in the slightest

in speaking of the report to a reporter a prominent member of the commission said in part:

"The report does not whitewash. It criticizes, but not persons or things not warranted by the evidence before us.

"The president never saw a line of our report before he received it officially; not a single word. Nor, indeed, had an insurance of nearly \$10,000 on has he ever talked with any of the commission about it.

witnesses, and the majority of them nad some complaint that they wanted to make. In no instance can it be proven that we have omitted to call any witness who has been brought to our attention as having important facts to disclose. But had we desired to 'whitewash' the administration we could have had 10,000 who could truthfully testity hat the conduct of the war was all right.

course, there were some evils, but they were to be expected. The soldiers in the Civil war never had hospitals or medical attendance as good as was given them in the war with Spain. And their army ration then was not as eatable as it is now. The men who complained the most of the food we found were very generally the militiamen from the interiors of states and who had been allowed \$2 per head for subsistence stores while they were in state camps.

"in questioning these men nearly all confessed to us that they had always received the army ration. They had no right to expect any more."

### BEEF INQUIRY COURT.

Members to Investigate Miles' Charges Appointed by Order of the President.

WASHINGTON, Feb. 10 .- By instructions of the president a court of inquiry was appointed to examine into the charges touching the meat furnished | Boynton closed for the defense. the American army during the war with Spain and other matters involved in the charges made by General Miles against the administration of war affairs.

The court will consist of Major General Wade, Brigadier General George W. Davis, United States volunteers; Colonel Gillespie, corps of engineers, now stationed in New York; Lieutenant Colonel George B. Davis, deputy judge advocate general, United States army, recorder. The order said in part:

"The court is hereby directed to investigate certain allegations of the major general commanding the army in respect to the unfitness for issue of certain articles of food furnished by the subsistence department to the troops in the field during the recent operations in Cuba and Porto Rico. In addition to its findings of fact the court will submit an opinion upon the merits of the case, together with such recommendations as to further proceedings as

Third Blaze In Same Block Within a Week.

LOSS WAS ESTIMATED AT \$40,000.

Building Occupied by a Hose Manufacturing Company Burned at Barnesville-Eight People Had Narrow Escape From a Fire at Akron.

Youngstown, Feb. 10.—For the third time within a month this city experienced a considerable fire, one occurring on the same block and within a few doors of the others. The blaze will entail a loss of \$40,000. The large steam bakery of C. Weick & Sons, the wholesale leather establishmen of J. Resch & Co., the cigar manufactory of C. Viall and the photograph gallery of E. Webb are a total loss, while the retail grocery stock of W. Neville and the stock of wines and liquors of Traut, Miller & Co were considerably damaged. The losses are partially covered by insurance.

BARNESVILLE, Feb. 10 .- The building occupied by the Bush Hosiery company, manufacturers of cotton and woolen hose, was burned. The building was owned by Mrs. Atkinson and was insured for \$1,000. It was valued at about \$4,000. The hosiery company machinery and stock, valued at \$12,000. The loss was total. Fifty hands are "We have questioned more than 500; thrown out of employment. The origin of the fire is unknown.

AKRON, Feb. 10.—The handsome residence of M. O'Neil, West Market street, burned. The fire started from the furnace. Mrs. O'Neil, six children and a domestic escaped in their nightclothes. The loss on the house and contents will be \$12,000, insured Several of the fire-men had the r hands frozen in fighting

ARGUED DELLENBAUGH CASE.

The Cleveland Judge's Trial Reviewed by Attorneys.

CLEVELAND, Feb. 10 .- After the examination of several unimportant witnesses in the disbarment proceedings against Judge Frank E. Dellenbaugh both sides rested, and the arguments were immediately begun. Attorney John R. White, for the prosecution, spoke first.

"If Judge Dellenbaugh is found guilty," said Mr. White, "he cannot be driven from the benck, but he will be deprived of his usefulness as a judge. The question is whether professional proprieties and moralities have been infringed. If they have a verdict of guilty should be returned without sympathy for those affected."

Attorney J. H. Hogsett made the first argument for the detense. Mr. Hogsett reviewed some of the testimony to show that the charges against Dellenbaugh had not been substantiated. Attorney Alexander made the closing argument for the prosecution, and Judge W. W.

The sewer commissioners held an interesting session yesterday afternoon in the office of the secretary, F. H. Croxall.

All members of the board and Engineer George were present when the meeting was called to order, and the 000,000, exclusive of the \$20,000,000 to president stated that the object of the meeting was to open the bids for furnishing sewer pipe for sewer district

To complete the work of building the sewer it will require seven miles of pipe or 25 car loads, and several bids had been received.

The board carefully considered all bids for some time, and at the close of the meeting decided to reserve their decision Mr. Cannon's speech was in every way from the public until next Tuesday morning, as they will have another meeting Monday evening and again look over the bids.

It is the intention of the sewer commissioners to get the work on Tanyard run sewer started as early in the spring as possible, and all necessary steps will be taken to get everything in readiness. The residents of sewer district No. 2 are very much elated over the fact that the sewering of the district is at last in sight as many of them have labored for years to accomplish the purpose.

Their is no doubt that the sewer is very much needed, and when the work is completed it will do much toward city.

Council will act in harmony with the commissioners, and as soon as the plans are all completed will give the commissioners all the assistance in their power in order to see the work completed as in attendance. rapidly as possible.

When Money Is Paid to Local Manufacturers.

ORGANIZATION THEN EXPECTED

The Understanding Is That the Meeting Will Be Held In New York and as Soon as the Accounts Are Settled Directors and Officers Will Be Elected,

A well informed manufacturer in speaking of the organization of the American Potteries company, said to the News Review :

"The information I have, and I believe it to be the information under which I am to act, says that when the money is ready for payment the representatives of all concerns are to be called to New York. There payment in stock and money will be made as soon as possible, the eastern and western potters receiving their respective shares as soon as the necessary papers are signed. Then, if there is no delay, the stockholders will elect directors, and so far as the majority of East Liverpool men are concerned the business will be done and they can return home. I have heard that there will be no trouble attending either the election of directors or the organization of that body, and the result will be satisfactory to all parties concerned."

#### MILES HAS A TURN.

If General Miles is honest in the statements he has been making through his friends, the New York newspapers, he has nothing to fear from the board appointed by President McKinley to look into the charges. The gentlemen are army officers, and men whose integrity has never been doubted, and the general cannot have good cause for complaint. It will answer at least one purpose, since the end of the supply scandal is in sight. It may take weeks to place the responsibility, but when it is done the public will be satisfied.

### MR. GROSVENOR'S POSITION.

General Grosvenor has announced, according to Washington dispatches, that he will not be a candidate for govenor unless the position is given him without opposition. If the story be true the veteran's finish is in plain view even now, for the man who will carry the Republican banner in Ohio this year must fight for the position, showing the rank and file of the party that he is in earnest and seeks the position because he expects to fill it. Just now, however, General Grosvenor will lose nothing by withdrawing from the race.

### REPUBLICAN RESPONSIBILITY.

The next congress, upon the shoulders of whose members will rest the responsibility of determining the policy for the Philippines, will be Republican, and the action taken will be upon Republican lines. To the present time President McKinley has conducted affairs in a manner nothing short of masterly, and he will continue in the same manner. With no Democratic power in house or senate to hamper and sway him he can carry out the policy that may be laid down without fear of interruption. There is therefore abundant room for the belief that the Philippine problem will not only be solved in short order. but to the satisfaction of the country.

### NOT AN ISSUE.

Aguinaldo, the presumptuous leader of the Philipinos, should not be an issue in the settlement of the questions now facing this government in the far east. This country does not care a snap for him, except that he must do no more mischief, for it is his people who must be considered. They have a right to expect humane treatment from the most humane nation on earth, and they will get it, but not until they have forsaken the banner of their chief and concluded that the folds of the Stars and Stripes are much safer as a place of refuge. As for Aguinaldo, his time will come. It may be delayed a few months, but he has no reason to expect anything from this government at any time.

While at Some Points It Went Far Below. Reports From Country Districts Show That It Has Been Colder North and South of This Place-Stock Suffering.

People who yesterday thought the lowest temperature had been reached, and it would begin to get warmer soon found they were mistaken, and the worst was to come.

The thermometer yesterday morning stood at 14 degrees below zero, and at noon had gone to one degree above. It then began to go down rapidly, and by the thermometer at Hodson's at 2 o'clock it was four below; at 6 o'clock it was five below; at 9 o'clock it was 10 below, and at 10 o'clock it was 14 below. It continued to grow colder, and at 7:30 o'clock this morning the thermometer known in this vicinity.

The thermometer at the residence of F. D. Kitchel this morning registered street went down to 24 degrees. Other turning. thermometers in various parts of the city registered anywhere from 10 to 22

This morning was one of the most beautiful of the year, and the clear sun shining on the snow presented a picture long to be remembered. There was not a great deal of saffering from the cold although the streets were practically deserted and every person lost no time in hunting a warm place.

Janitor Albright worked all night keeping the school building thoroughly heated and succeeded very well, and this morning the building was in a comfortable condition.

Fire Chief Morley and his assistants were also caused some trouble by the extreme cold, and were kept busy inspecting fire plugs to see that they were not frozen up in case a fire should break

Numerous sledding parties that were scheduled to take place last night were postponed on account of the weather.

J. M. Kelly, who has a splendid record of extremes of heat and cold in this place for 20 years, has no record lower than six degrees below zero. The coldest before the present snap recorded was in January, 1885.

Reports from the country districts show that it has been colder there than in this city. At Negley this morning it was 31 degrees below zero, and at St Clair the thermometer showed 28 degrees. Even on the outskirts of the city the same is true. Frank Fisher, whose place of business is at Edwards avenue and Jethro street, reports that 26 degrees was the mark there at 6:45 o'clock this

On the Virginia side people are shivering and wondering when it is all going to end. Out in the hills the cold has been very severe, and stock has suffered much. Readings of tested thermometers at a number of points showed from 20 to 24 degrees this morning.

Wanted Her Money's Worth.

Bridget Rafferty had served the best years of her life as a cook, and now that she was "wearin awa" and an operation became necessary she haughtily declined to go to a ward, but took one of the best rooms in the hospital. The operation was successful, but the patient was allowed very little food. During her convalescence she made frequent use of the electric bell at her bed. The nurse would fiy to her, to be greeted with some trifling question or the remark, "I only wanted to know if you were there.

As such frequent use of her bell suggested to the matron on that floor that the nurse was neglecting her patient, the nurse remonstrated, and received the following unique explanation:

"Well, you see. miss, here I am paying \$30 a week, and I'm not seeing any thing, I'm not hearing anything, and. miss, I'm not eating anything. So I just ring the bell to get my money's worth, and, anyways, I enjoy hearing it ring. "-San Francisco Argonaut.

Boy Seriously Injured at the Thompson Pottery.

TWISTED BADLY WAS LEG

Langley Was Scuffling Near a Cup Jigger With Another Youth When He Received a Iwist That Will Keep Him In Bed For

A serious accident occurred last evening at the C. C. Thompson pottery.

A boy named Langley, who is employed at the pottery in running molds, last evening about 6 o'clock was scuffling in front of a cup jigger with another boy, and in the scuffle Langley was pushed too close to the bench and his foot caught in the machinery under the bench, giving his leg a terrible wrench. In order to extricate him it was necessary to stop the machinery, and it was done as soon as possible, as the spectators expected to see the boy's leg torn off.

As soon as the machinery had been stopped the boy was removed from his perilous position, and it was found he had been severely injured.

The patrol wagon was called and he was taken to his home in Ogden street and a physician summoned, and it was found that he had dislocated his ankle joint, while the ankle ligaments were badly torn and his leg had been badly wrenched. It will be at least three or four weeks before the boy will be able to be out.

### MUNCHAUSENISMS.

#### A Local Paper Can Discount Munchausen.

A local sheet of East Liverpool dares to assert that a certain gas company is doing extremely well in its promise to supply fuel. The promise is all right, and has been made on numerous occasions; the fuel is and has been conspicuons by its absence. The writer knows whereof he speaks; he has been absolutely frozen out; the gas ignited momentarily, when a lighted taper was applied, but the air pressure at once blew out the diminutive flame. The immediate neighbors were consulted and handed in the same verdict. And yet the Local Munchausen keeps up his lack-of-brain attempts to fool and deceive the people. Afraid that he may loose a five line paid local, at 15 cents a line, handed in to him in the shape of a bribe. In the language of Shakespeare, or some other fellow:

### THE CHINESE NEW YEAR

Is Now Being Celebrated by Local Celestials.

IT WILL LAST FIFTEEN DAYS

The Observation Began Yesterday and Is Now In Progress-The Cold Weather Served to Keep Them From Making a Great Deal of Noise.

Nane Choo Yit, or the New Year, is being celebrated by the Chinese colony in this city. Yesterday was New Year's day and the festivities characteristic of the race, will last until February 24. or 15 days. The natives in this city did not celebrate the day in the manner in which they intended to owing to the cold weather A large supply of fire crackers had been purchased, but these will be saved until the Fourth of July.

A reporter of the News Review this morning called on John Smith, one of the best educated Chinese in the city, and in speaking of the celebration he said:

"There is one feature about the new year's worship which is interesting. The ordinary people worship Pooh Sot. while the royal family worship Sin, the great god. Sin represents the highest divine authority, while Pooh Sot is a mediator, the same as Christ in the Christian religion. To be more clear, Sin acts in the same capacity as the president, while Pooh Sot is like a governor, presiding over smaller provinces. The royal family only has access to his highness, while the small fry must be content to lay their troubles before Pooh Sot. The heathen Chinese make fun of the Christian religion and they say you Americans are no good. A few of us, however, have studied your religion and have changed our minds, so today, instead of worshiping idols we start the new year by worshiping God, the only true Deity," said John.

"When we wish each other a happy new year in the native tongue we say, 'Gong He Fot Toy.' "

A GLYCERINE STORY.

They Are Now Taking It to Scio on Sleds.

The following from the Toronto Tribune shows that nitro-glycerine is needed in the Scio field.

"A skiff load of nitro glycerine was landed at Markle last night from points up the river, and was loaded in a sled for transportation to the Scio oil field. When the sled got out in the country some distance they were compelled to return to Toronto on account of breaking down. The team started out again later in the day."

THE GLASS

Has Arrived For the New Christian Church.

The glass for the Christian church has arrived, and just as soon as the weather permits it will be placed in position. The heaters are nearly completed, and if the weather was favorable it would only be a short time until the church was ready for occupancy. When the weather moderates the work on the church will be pushed, and it is hoped to have it finished in a few weeks.

### UNION LABELS

It should be a deep-rooted principle of all union workmen and union sympa. thizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent work. ing hours, and union labor employed.

The Dark Eyed Spanish Beauties. Still Faithful to the Lost Cause. Have No Smiles For the American Soldier-The Midday Siesta-Fortifications and Odd Structures.

[Copyright, 1899, by the Author.] III.

When one begins to tell about the meer old capital city of the Philippines get here on the western coast of Luzon and at the mouth of the noble Pasig, whose waters carry down from the interior golden grains of sand, one has an almost endless theme. It is a story of fascinating interest. Every one of the 378 years which have elapsed since the discovery of these islands by Magellan and each one of the 327 years which have been numbered with the past since first the banner of Castile and the holy cross were planted here is filled with events which in themselves would fill volumes. In this tropical clime, beneath the sun's scorching rays, which come down so straight that a sentinel cannot dodge them, there are many things of an intense and absorbing interest. When one tires of listening to the horrors of the past and to the dark tales of Spanish oppression and misrule, one can turn his mind elsewhere and lose no

Indeed Manila is a somber place. The great walls, fortifications and armaments to be seen everywhere keep the idea of defenses uppermost in the mind. Manila has many fine boulevards, and on these in the cool hours of the evening Manila's society may be seen driving along in the queer open carriages in which one lounges rather than sits while riding. The spirited little ponies jog along merrily. The Spanish ladies, some of whom are extremely handsome,

tinued down to the present day: New had harbor improvements under way above the tide. Binondo, Santa Cruz will complete these improvements. and San Miguel are the districts lying along the Pasig, with San Sebastian, Sampolia and other districts back from the river. Binondo is the center of Manila's commerce.

The fortifications are among the most interesting features of Old Manila. Running along bay and river, the two walls of the old city form an acute angle. These walls are connected by others on the land side, which by half a dozen angles cover the mile and a half between bay and river. On the bay side the fortifications extend over a mile, and on the Pasig half that distance. Within the main city are inclosed probably three square miles of territory.

The walls are pierced by eight gates. On the bay side are Puerto Santa Lucia and Puerto Portigo; on the land side, fronting the fortifications, are Puerto Real and Puerto Del Parian; on the land side, overlooking the river, are Puerto Isabel and Puerto Santo Domingo, and on the Pasig side, looking toward the point, are Puerto Adriana and Puerto Almaune. All of these thrice century old gates have their drawbridges, lookouts and other mediæval arrangements, and while none has been closed for some years, the old machinery remains in perfect condition. Surrounding the whole fortifications is a system of great moats, flooded by the tide.

There are many interesting public buildings, churches and private dwellings in Old Manila. The capitol, or the ancentimento, as the Spanish call it, is located here, and where Augustin formerly ruled our government officials now direct affairs on these islands. The cathedral of Old Manila was built in 1578, and, although it has endured several earthquakes, which have shattered its towers, it still stands.

Old Manila-is fronted on the bay side by the Metelle, a fashionable driveway and promenade, where Spanish society formerly disported itself, but which is now thronged by American soldiery and Spanish prisoners. Bevond the Metelle along the how is the

Just beyond the Escolta is located the Chinese quarter, and here upward of 50,000 Celestials live in closely crowded quarters. The Chinese settlement in Manila forms a civilization all of its own. The Chinese are thrifty and industrious, and here as elsewhere they have prospered in spite of persecutions. Manila has several millionaire Chinese merchants and hundreds of wealthy Celestial shopkeepers and manufac-

The population of Manila is a most heterogeneous one-Chinese, Japs, Malays, Portuguese English, Dutch, Germans, Americans and all the rest. It is doubtful whether there is an Asiatic nationality which is not here represented. The native population by far outnumbers all other classes of people. The natives, next to the Chinese, are most energetic in business.

SENATORS HAD A SHARP TILT.

Allen Commented Upon the Methods o the Appropriations Committee.

WASHINGTON, Feb. 10.-The senate had under consideration the legislative, bill. A lively debate was precipitated the appropriation for the support of the office of the supervising architect of the treasury and that official was criticized for the delay in the construction of public buildings throughout the United States.

A speech made by Mr. Allen (Neb.), in which he commented unfavorably upon the methods of the appropriat ons committee, induced a rejoinder from Mr. Chandler (N. H.), which resulted in a sharp tilt between the two sewators. Fifty-one pages of the pending bill were disposed of before the senate went into executive session for the remainder of the day.

DOSED HIM WITH RED ANTS

Wilkesbarre Physician's Odd Cure For Rheumatic Patient.

"Dr." Stanley Weise of Wilkesbarre was arrested and sent to jail recently charged with practicing medicine with out a license. The arrest was upon complaint of Mrs. Peter Cox, whose husband was under the doctor's treatment for rheumatism.

The treatment was very novel. The complainant alleges that the doctor procured a good sized barrel, which he nearly filled with hot water. Then he put Cox in the barrel and made him sit there on a bucket, with the water up to his neck. Then, she says, the doctor put in three hot bricks for Ccx's feet, poured in a peck of sand, and the patient was next treated with two quarts of salt. quart of vinegar mixed with ants and

Mrs. Cox said the doctor kept her husband in the "pickling" process from 7 to 8 o'clock, standing beside the barrel the whole time wiping the perspiration from the sweltering patient's face and telling him the cure was progressing nicely. When the hour was up and the color of the patient was turning from purple to blue, Cox was lifted out of the barrel and placed in bed for the second part of the cure. This consisted of dressing him with four shirts, two pairs of drawers, two pairs of trousers and covering him snugly with two blankets. two quilts and two comforters.

Mrs. Cox swore that this treatment was continued for three nights in succession and also that Dr. Weise had smeared his patient all over with a certain kind of grease, mixed with little chips, and gave him two bottles of whisky mixed with ants to drink. Cox was to take half a wineglassful of the liquor three times a day. The poor man submitted heroically to the strange treatment, but it did not benefit him. and he is now suffering more than ever. and to this is due the arrest. Dr. Weise had nothing to say except that the treatment was all right. He has no license. —Philadelphia Press.

A New Whooping Cough Bacillus.

An Italian investigator, Professor Livio Vincenzi, at Sassari claims to it, as stated in The Deutsche Medizinische Wochenschrift, in the expectorations of children suffering from whoop ing cough, in some cases it being pres ent in a very large quantity, while it was absent in other processes of sickness. Professor Vincenzi ascertained by a series of researches the peculiar quali ties of the little organism, but he did not succeed in causing by inoculation on animals the same disease as in human beings. It is, however, a well known fact that whooping cough never occurs in animals. - Public Opinion.

Under the present regime early in the morning and in the evening the ablaze with brilliant lights, the Escolta is crowded with pedestrians, and the Cascada, the Metelle and the Lunetta are filled with gay equipages. Our soldiers are falling into the ways of the midday tiesta, and our officials have come to realize that our hustling methods, as go in this land, where the sun con- nondo. tinucusly pours its rays straight down. Like all slow going Asiatic towns, Manila is today very much the same as it has been for centuries, though the coming of the Americans has infused some new life and vigor into the sleepy old place. #### LOCAL BREVITIES

The printers at the Harker pottery loafed vesterday owing to a scarcity of ware:

The Endeavorers of the First Presbyterian church will give a social in the church this evening.

Elwood Pasey, who has been very seriously ill, is somewhat improved to-

Mrs. Wilson Smith last evening entertained a number of friends in honor of her sister, Miss Ferguson, of Hookstown.

The funeral of the late Clark Thomp-

son will take place tomorrow afternoon at 1 o'clock from his late home in Smith's Ferry. John Shrader and Attorney W. B.

Hill, who have been in Lisbon several days, will return to the city this evening.

Doctor Gardner, who has resided here

for 30 years, says he never in all that time knew a morning so cold as that which he experienced today. Mrs. Andrews, of Mechanicstown,

who has been visiting relatives in this city several weeks, returned to her home this morning.

William Bolton returned to Carrollton

this morning after spending a short time in the city on business. Mr. Bolton also spent a few days in Pittsburg.

The township trustees are very desirous that all persons who have old clothes to spare will bring them to their office, as they have a constant string of applications for old clothes.

The decorating department of the Dresden pottery did not work today on account of the cold. Several departments at the Goodwin pottery were shut down from the same cause.

J. J. Purinton has been appointed administrator of the estate of J. M. Burlingame, with a bond of \$3.000. The appraisers are William Kent, T. H. Arbuckle and William Erlanger.

Mr. and Mrs. T. V. Milligan delightfully entertained a number of friends last evening at their home in Third street. The appointments were perfect, and the entertainment proved highly enjoyable.

Brakeman Pilmer, of the Cleveland and Pittsburg Bellaire accommodation. who has been confined to his home in Wellsville by an attack of typhoid fever, is improving rapidly. He may be able to be out next week.

A local paper is returning to its old tactics. Last night it contained an article relative to the National Guard which appeared in the News Review earlier in the week. It can find no better place if it would have news.

The grand jury at Lisbon wound up its business today by visiting the jail. It is expected that the usual report will be made, and the structure will be condemned. Clerk McNutt is thinking of having the report printed and keeping a number of copies on hand. It will save some work in preparing a new one, since each is almost identical with that which preceded it.

James Heckathorn died yesterday at his home in Fifth street from a paralytic stroke. Deceased was employed as a kilnhand at the Standard pottery, and was well and favorably known. Four sons are left to mourn his loss. The funeral will take place tomorrow afternoon at 2:30 o'clock, and will be in charge of the Red Men, of which order the deceased was a member. Reverend Swift will officiate.

Charles Bucey was arrested last evening by Officer McCullough in Sixth street. He was very drunk and when found by the officer was almost numb. He was taken to jail where he spent the night, and this morning he was asked for a contribution of \$6.60 which he paid. This was the only arrest made. As soon as the case was disposed of Mayor Bough went home as he stated it was warmer there than it was at city hall.
